### Which—Man or Shirt?

Has the man grown, or has the flannel shrunk? Usually, the shirt is to blame. No, not that, either-but the way it's washed. Flannels ought to

be washed with Pearl-

ine. If you're buying new ones, start right. Have them washed only with Pearline (direction on every package) and they won't shrink. As for the old ones, Pearline can't make them any larger, but begin with it at once and it will keep them from growing smaller. It will keep them from the wear and tear of the washboard, too.

As one wash is sufficient to ruin flannels, great care should be exercised as to the use of the many imitations which are being offered by unscrupul-grocers or peddlers. 314 JAMES PYLE.
